

Glossop and District TTL Volcrepe Cup 2009/10

Introduction

The list of eligible players with handicaps is set out below.

Please note that this year sees the introduction of negative personal handicaps in order to broaden the handicapping range. This is in response to analysis of the results of Volcrepe Cup matches over the past few years and should improve the competition

The rules for the Cup remain as set out in section R6 of the League Handbook. As normal, the Team Handicap is the total of the personal handicaps of the 3 individual players selected for the match.

Where the Team Handicaps for both teams have the same sign (i.e. both are positive or both are negative) there is no change to the method which has been in place for many years i.e. the Team Handicaps for each team are merely aggregated with the number of points won in the matches played and the resulting totals will constitute their final scores.

For example:

Team A + 60 v Team B + 100 or ***Team A -60 v Team B -100***

Where however the Team Handicaps for both teams have differing signs (i.e. one team has a positive handicap and the other a negative handicap) the situation is a little more complex, as follows:

Step 1: the team with the negative Team Handicap has an equivalent Handicap Adjustment added to give them a zero match handicap;
and

Step 2: the team with the positive Team Handicap is given a calculated handicap based on their Team Handicap and the Handicap Adjustment in Step 1 above. This is calculated as the bigger of the Team Handicap and Handicap Adjustment plus HALF of the smaller.

For example:

Team A -60 v Team B +100

- Team A's handicap will be increased to Zero by adding a Handicap Adjustment of +60 to their Team Handicap of -60
- Team B's handicap will be increased to +130 by adding HALF of the (smaller) Handicap Adjustment of +60 (i.e. +30) to their (bigger) Team Handicap of +100
- Thereafter everything else proceeds as normal

Team A -100 v Team B +60

- Team A's handicap will be increased to Zero by adding a Handicap Adjustment of +100 to their Team Handicap of -100
- Team B's handicap will be increased to +130 by adding the (bigger) Handicap Adjustment of +100 to HALF of their (smaller) Team Handicap of +60 (i.e. +30)
- Thereafter everything else proceeds as normal.

We appreciate that this increases the complexity of the competition a little; however we believe that the handicapping will be improved as a result. Please do not hesitate to contact me (tsbaker@btopenworld.com or 0777 599 8272) if you need any further clarity.

Updated: 4/1/10

For information, these handicaps have been compiled based on analysis covering this and the previous 5 seasons' playing records using a structured approach. A lot of effort has gone into preparing them in order to try and provide the best and fairest competition possible

I hope you enjoy this year's Volcrepe Cup. Please let me know your thoughts in due course.

Best wishes

Tim
